Experiment No.: 2

Name Khushi Chaudhari

Roll No. : 07

Batch T5

Problem Statement : Design suitable data structures and implement Pass-I of a two pass macro processor using OOP features in Java/C++. The output of Pass-I (MNT, MDT, ALA & Intermediate code file without any macro definitions) should be input for Pass-II.

Code :

```
import java.io.BufferedReader;
import java.io.FileReader;
import java.io.FileWriter;
import java.io.IOException;
import java.util.HashMap;

public class Pass2 {
	public static void main(String[] Args) throws IOException{
		BufferedReader b1 = new BufferedReader(new FileReader("intermediate.txt"));
	   BufferedReader b2 = new BufferedReader(new FileReader("symtab.txt"));
	   BufferedReader b3 = new BufferedReader(new FileReader("littab.txt"));
	   FileWriter f1 = new FileWriter("Pass2.txt");
	   HashMap<Integer, String> symSymbol = new HashMap<Integer, String>();
	   HashMap<Integer, String> litSymbol = new HashMap<Integer, String>();
	   HashMap<Integer, String> litAddr = new HashMap<Integer, String>();
	   String s;
	   int symtabPointer=1,littabPointer=1,offset;
	   while((s=b2.readLine())!=null){
		String word[]=s.split("\t\t\t");
		symSymbol.put(symtabPointer++,word[1]);
	   }
	   while((s=b3.readLine())!=null){
		String word[]=s.split("\t\t");
		litSymbol.put(littabPointer,word[0]);
		litAddr.put(littabPointer++,word[1]);
	   }
	   while((s=b1.readLine())!=null){
```

```
                    if(s.substring(1,6).compareToIgnoreCase("IS,00")==0){
                            f1.write("+ 00 0 000\n");
                    }
                    else if(s.substring(1,3).compareToIgnoreCase("IS")==0){
                            f1.write("+ "+s.substring(4,6)+" ");
                            if(s.charAt(9)==')'){
                                    f1.write(s.charAt(8)+" ");
                                    offset=3;
                            }
                            else{
                                    f1.write("0 ");
                                    offset=0;
                            }
                            if(s.charAt(8+offset)=='S')

f1.write(symSymbol.get(Integer.parseInt(s.substring(10+offset,s.length()-1)))+"\n");
                            else
                                    f1.write(litAddr.get(Integer.parseInt(s.substring(10+offset,s.length()-
1)))+"\n");
                    }
                    else if(s.substring(1,6).compareToIgnoreCase("DL,01")==0){
                            String s1=s.substring(10,s.length()-1),s2="";
                            for(int i=0;i<3-s1.length();i++)
                                    s2+="0";
                            s2+=s1;
                            f1.write("+ 00 0 "+s2+"\n");
                    }
                    else{
                            f1.write("\n");
                    }
            }
            f1.close();
            b1.close();
            b2.close();
            b3.close();
        }
}
```

/*
